**SUMMARY :** Adarsh Gaon Yojana has been implemented by the Government of Maharashtra State since 1992 with the aim of overall development of rural people with their active involvement. The study was conducted in Ambadvet village from Mulshi taluka of Pune district. From 458 women a sample of 230 women was selected randomly and data was collected from them by interviewing them personally. The study revealed that large majority of the women had medium level of perception about Adarsh Gaon Yojana. About 17.39 per cent of them had high level of perception.
