Abstract : A study was conducted in Amaniganj block of Faizabad district of Uttar Pradesh to know the constraints in efficient functioning of dairy enterprise under SGSY during the year 2013. A sample of one hundred farmers were selected randomly from the list of 5 purposely selected villages *i.e.*, Raipatti, Manjhanpur Manudeeh, Satemau and Taldholi. The relevant variables were selected after reviewing the literatures available and the works done in the field prior to the present investigation. A well structured and pretested interview schedule was used for data collection through personal interview method. The data was analyzed by using percentage, mean and standard deviation.

Key words : Enterprise, Interview Schedule, Sample, Structured
