### ABSTRACT

The real India live in villages', this saying is as true today as it was when the country got independence 65 years back. As more than half of the population of the country lives in villages, rural development is an eminent factor for the development of our economy. The crucial motivating factor for the development of the economy in today's time is education. Like in the body of human being liver is responsible for the proper functioning of the body, in the same way education acts a backbone for the economy. To explore this significant role of education in India especially in rural India, this paper tries to explain the present condition of rural education, rural education v/s urban education failures and problems being faced by the rural education. It also focused the various initiatives been taken by the government and some of the suggestions for improving the education system in rural or remote areas.
