SUMMARY : The present study was conducted purposively in Aurangabad, Nanded, Beed and Jalna district of the Marathwada region of Maharashtra state during the year 2017-2018. From this four district eight tahsils were selected purposively. From each selected taluka two villages were selected purposively for the study. Fifteen beneficiaries of MGNREGA were selected randomly from each selected villages. Thus comprising total 240 beneficiaries were selected from Marathwada region for research study. It was found that, in participation of MGNREGA scheme major constraints relating to the financial constraints, situational constraints, technical constraints, administrative constraints and communication constraints were faced by the MGNREGA beneficiaries and MGNREGA beneficiaries suggested some important suggestions to overcome these constraints.
