■ **ABSTRACT** : An attempt has been made to simulate textile designs from Mewar paintings for sarees using CAD software. 15 saree designs were developed on computer using Corel Draw software to select the best five placements and its folk embroidery, prior to actual embroidery on saree and evaluated by panel of sixty judges. The findings of present study revealed that the designs were very innovative, creative and as per the current market need and were highly appreciated by the judges.

■ **KEY WORDS** : Computer aided designing (CAD), Simulation, Corel draw, Motif
